

# LABOR & EMPLOYMENT

Employers today are facing an ever-changing legal landscape. Our Labor and Employment attorneys take a proactive approach to assist clients in the development and implementation of strategies to meet these specific needs.

With an eye toward avoiding conflicts, we can guide you through new developments in the law, provide you with options and help you make informed decisions. In those instances where litigation is necessary, our attorneys are prepared to represent you in state or federal court, before regulatory agencies and other tribunals.

Our advice is based not only on the years of experience we have in representing clients but also on our thorough understanding of the business landscape. We stay abreast of local, state, and national developments in order to advise you on labor and employment issues in a holistic context, rather than a strictly legal one.

We are active in community organizations such as chambers of commerce, local, statewide and national human resources associations, and diversity commissions, again, to help us help you. We also have long-standing excellent relationships with the EEOC at all levels, in mediation and investigations. We also have lawyers who are involved in drafting legislation on employment issues at the State Legislature.
